

SPORTS DOBSON TO START MASS ATHLETICS AT RICHMOND COLLEGE

ALL STUDENTS TO SHARE IN SOME FORM OF SPORT

Dobson Will Introduce System of Mass Athletics at Richmond College This Session.

WILL ARRIVE IN FEW DAYS

Spiller Coach Has Been on Trip Through Middle West Inspecting Gymnasiums and Working of New Program of Sports in Big Schools.

When Frank Dobson takes charge of the athletics at Richmond College in a few days, the first step will be taken in the establishment of a system of mass athletics, which will be the first of its kind in any institution in Virginia.

Every student in the school, unless physically incapacitated, will be required to take three hours of athletic work each week to complete his requirements for a degree. This will bring all the students into some form of sport and accomplish a result that has been impossible to attain in the past. There will, naturally, be a wide range of choice. Men who play on varsity teams will be expected to continue doing in any form of sport. Besides football, baseball, track and basketball, which are ranked as major sports, tennis will count. Then there will be boxing, swimming, cross-country runs, and for those who are not members of teams, either as regulars or substitutes.

Students May Play Golf.

It is also possible that golf playing will be allowed to count in the degree requirements. It is understood that some of the students are already planning to play golf during the summer. The Country Club of Virginia has the required number of hours. A number are expected to go for swimming during the early fall and summer in Westhampton Lake, which forms a part of the college campus.

During the winter when outdoor sports are impossible, boxing, wrestling and gymnastics will be on the program. Five pairs of boxing gloves and other arm athletic equipment have already been purchased from the University of Virginia and will be used for the use of the students.

Details of the plan have been worked out by Coach Dobson and will be made known upon his arrival. The first spots in the program were outlined by President Boatwright, who has been in communication with Coach Dobson during the summer.

All The Old Gymnasium.

This year Richmond College will use the temporary gymnasium of frame construction. It has a large floor, 60 by 100 feet, and will be made that Dobson will assemble his gymnasium classes in winter months and put them through their paces in all forms of setting-up exercises and work on the various pieces of gymnasium apparatus.

The session this year begins on September 18. By the time the next college year opens the new Memorial Gymnasium, the gift of Laurence Millhiser, of Richmond, in memory of his son, a former student at the college, will probably have been finished and will be the center for all the athletic department at Richmond College.

It will be built on one of its features will be a complete indoor track, which will be situated near the old field.

Has Made Inspection Tour.

Dobson, who has been traveling through the Middle West inspecting a number of gymnasiums at the big universities and talking with the authorities there. His findings will be reported to President Boatwright and the architect, who will be the best of the new features will be adopted. Dobson is expected to make a complete report to the big gymnasiums visited when he returns here.

During this session and in coming sessions while he is connected with Richmond College, Dobson will sit as a member of the college faculty and will see that athletics at the college share of attention. He has never before been a member of the faculty.

Dobson is generally considered a fine man to have at the head of the new system of mass athletics. He will give the majority of the instruction and is well qualified to do it. He is an expert in the four major sports and is an unbroken good boxer, swimmer and skater.
